Landfill Generator Treatment, Storage, Disposal (TSD)
Transporter X Other: Non-notifier

PRIORITY ASSESSMENT: HIGH MEDIUM X NO FURTHER REMEDIAL
ACTION PLANNED (NFRAP)

CLASS: I-STATE LEAD II-REM/FIT LEAD
State Accompanies

State Comments:

R & R Industrial Park is located in Hammond, Indiana. It is commonly referred to as the Pullman-Standard site. It is apparent that Pullman-Standard disposed of their barrels, which appeared to be empty, in the dump area which is located in the back of the property, in the northeast section. A major concern is the possibility of groundwater, and more remotely, surface water contamination.

Due to the fact that the city of Hammond receives its drinking water from Lake Michigan, the State recommends that a No Further Remedial Action Planned (NFRAP) assessment be given to this site.

This information will be forwarded to the State's Cleanup Section for further investigation and possible remediation.
